brannan.co.uk

Guarantee of Quality.

S. Brannan & Sons Ltd guarantees that every instrument we produce has been manufactured and inspected against traceable reference standards in accordance with our ISO 9001:2015 certified Quality Management System.

S. Brannan & Sons Ltd manufacture and supply various instruments in accordance with worldwide specifications and industry standards. These products are tested and inspected in accordance with the specified standard.

Standards include (but are not limited to):

- **BS EN 837-1:** Pressure gauges. Bourdon tube pressure gauges. Dimensions, metrology, requirements, and testing.
- **BS EN 13190:** Dial Thermometers
- **ASME B40.100:** Pressure Gauges and Gauge Attachments
- **ASME B40.200:** Thermometers, Direct Reading and Remote Reading
- **DIN 16195:** Industrial liquid-in glass thermometer with round or V-shaped case; requirement and testing

*Refer to the product data sheet to determine which standard the product is manufactured in accordance with.

Guarantee of Accuracy.

S. Brannan & Sons Ltd guarantees that the maximum error of the instrument is within the specified tolerance accepted by the specification to which it is manufactured.

Certification.

In addition, the instrument can be individually certified and issued with a calibration certificate on request*.

*Additional charge for certification applies, contact our sales team for pricing.
